THE HEROES

testimony from participants

"They're making us use everything we've got left to challenge ourselves and learn how to be active again. It's not about pity...It's about living my life again. Thank you Adaptive Adventures!"

"After I lost my leg in Iraq, Adaptive Adventures gave me instruction and adaptive equipment to snow-ski, wakeboard, and kayak with my children. Now, my kids say, "Dad, let's go skiing"-not, "Dad, what can you do?"

"I prefer sit skiing over regular skiing. My first opportunity to get out of the military hospital after my injury was at the Adaptive Adventures Ski & Ride camp in Keystone. It's something I'll never forget... the Experience of a lifetime."
